## A black and white photograph of an elderly man with glasses, wearing a light-colored short-sleeved shirt and dark overalls, sitting in a wooden chair. He is positioned in front of a large, complex mechanical device, likely a typewriter or a similar office machine, which is heavily cluttered with papers and other items. The background shows a wooden wall and a door.

The third teacher to retire this year is our industrial arts man, Bill Mette, who came to Washington High in 1927. He is a product of the San Jose school system, including the State College. He has also done some graduate work at the University of Oregon. Mr. Mette is especially adept at building stage scenery for plays and making repairs on almost any type of school equipment that breaks down. When he retires, he intends to catch up on his fishing and hunting and traveling. For relaxation, he plans to do silver smithing and lapidary work. It will be quiet around here without Bill Mette.

"This 1957 year book is dedicated rightfully to those faculty members who have spent the best years of their lives in the guidance and teaching of the future citizens of this great democracy.

"They retire with the knowledge that their work will be continued by those of us who because of their friendship and counsel are better equipped to carry on.

"It is my sincere hope that their retirement will be an enjoyable experience after many years of school work."

## Representative Assembly

This was our first year under the new constitution which was ratified by the student body last spring. Under this new system more students take active part in student government. The student council is the executive branch of the government and is allowed to act upon laws made by the Representative Assembly, which is the law making body. This last group consists of representatives from each of the basic classes in school: freshmen, social living; sophomores, English II; juniors, U. S. History; and seniors, current problems

The student court consists of a Chief Justice who is elected by the student body and four Associate Justices who are elected from the Representative Assembly.

## CROSS-COUNTRY

The cross country teams were very successful this year. The Frosh-Soph team took the SCVAL championship and the Junior Varsity took second place. All of the meets except one took place at the Stanford University Golf Course. The possibility for a strong championship varsity next year looks very good, with a strong experienced group that for the most part has three years of eligibility remaining.

Outstanding runners this year were Joe Lucero, Captain of the Frosh-Soph team, Larry Danner, Bill Nickles, Al Espinoza, and Sixto Gonzales. The spark plugs of the J. V. team were Rich Luevano, Captain, and Rich Standal.

## "Frosh-Soph Baseball"

As we go to press our Frosh-Soph baseball team, under Coach Steele, is battling for its life. There is a mathematical chance for a championship at this time. All of these boys have a great potential. Many of them will be a big help to the varsity. It is a team with a lot of hustle. Hats off to a great team.
